

RFP Announcement 12-29-06

Entity: Southeast Island School District

Number: 158456

Date: 12-29-06

Contract Length: 1 to 3-years

Service: Broadband Telecommunication

Equipment: Southeast Island School District (SISD) has the required hardware to implement high speed Internet with video capability to all of our school sites.

Service: SISD is looking for the following:

- 1 – 768 down/512 up with the potential to increase to 1 meg down/768 up during the contract years
- 2 – service to all sites (including Port Protection, Port Alexander and Hyder), currently that is eight (8) schools
- 3 – flexibility of service in the number of sites per year due to fluctuating enrollment numbers at small sites, schools closed must be able to be taken off our commitment upon the date of the school's closure, schools opened must be able to be added
- 4 – Quality of Service is mandatory and must be of excellent quality
- 5 – all sites are networked with QOS at different levels
- 6 – SISD must be able to make changes to the scheduling directly without going through a third party
- 7 – 24-hour support with quality professionals capable of assisting with technical issues
- 8 – ease of transition
- 9 – usefulness of package offered – type of service
- 10 – district involvement of service options
- 11 – service specifically for SISD and not shared with other entities – We do not want other entities on the same bandwidth with potential for taking bandwidth from the school sites.

Considerations: SISD will consider price as the highest consideration with items listed in #1-11.

If you have any questions, please contact Melissa L. Cook at Southeast Island School District. (907) 828-8254 or mcook@sisd.org
